Abstract:

The article gives parallels from Theory of Species - Levels of Consciousness Structure in the Universe by Lord Prof. Momtchil Dobrev -1991- 2003 and THE TRUTH OF THE RESURRECTION AND USING THE POWER OF THOUGHT TO ACCESS TO THE SECRETS OF THE UNIVERSE, TO UNIVERSAL ENERGY FOR HEALING AND TO THE ABSOLUTE APPLIED IN EGYPT. This proves the highly developed Egyptian civilization, and at the same time the evidence that actually challenges Charles Darwin's Theory of the Origin of Man, Dialectical Materialism and EINSTEIN's postulate that the speed of light is the greatest and which is based on the EXPERIMENTS of Lord Prof. Momtchil Dobrev with consciousness and discoveries LAW OF INFORMATIONAL ENERGY GENE ADAPTATION from 2008 by Prince Lord Prof. Momchil Dobrev and Mariola Garibova-Dobreva, and which law is part of the Theory of the Universe developed in 2005 by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva, and which develop Energy-information Genetics, Energy-information Medicine, Energy-information-Psychology, Energy-information psychiatry, as part of THEORY OF THE UNIVERSUM developed by Prof. Mariola Garibova and Prof. Lord Momtchil Döbrev - Halachev in the Year 2005, Basics of the Cosmological Theory of Information and Vortex Field Theory developed by Lord Prof. Momtchil Döbrev - basic structure of the universe and ether, the structure of the ether. Based on these practical theories in 1991, Lord Prof. Momchil Dobrev also created two generators of free energy, which is obtained from ZERO POINT of the ETERNAL FIELD – A FIELD WITH IMMENSE CONSCIOUS POTENTIAL – UNLIMITED

Keywords: theory, universe, vortex field, energy-information genetics, adaptation.

1) .Introduction

Already in 1991, after 1985 and 1986, Lord Prof. Momchil Dobrev in Germany saw the light in the tunnel twice after spending 21 and 7 days in a coma, respectively, he developed experiments to prove the power of consciousness and the power of our thought, which can use consciousness to create miracles, to materialize, to see the most distant corners of the universe. Then Lord Prof. Momchil Dobrev created his own theory of species, types, and levels of consciousness, their structure, describing them mathematically.

Subsequently, Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva opened in 2008. the law of energy information gene adaptation based on a study of the shapes, sizes, characteristics of young people in development who have been adopted. The conclusion is that children and their characteristics depend and are formed as a result of the energy - information fields of the persons, the parents, with whom the children live, and in whose presence the children develop and grow. Ie This is decisive, and many children are the biological heirs of their parents. The conclusion is necessary after a study of children and families whose children have been adopted.

This proves that this genetic adaptation is the basis and as a consequence of Energy-Information Genetics, Energy-Information Medicine, Energy-Information Psychology, Energy-Information Psychiatry. These sciences, in turn, are part of the Theory of the Universe created by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva in 2005.

This law discovered by Prof. Momchil Dobrev and Prof. Marola Garibova-Dobreva REALLY not only DENIES DARWIN'S THEORY OF THE ORIGIN OF MAN, BUT is also a springboard to new medicine, genetics, psychology, psychiatry, NEW PHYSICS and part of THEORY OF THE UNIVERSE, NEW PHYSICS. From this law it follows that CONSCIOUSNESS - INFORMATION ENERGY forms MATTER with consciousness. This is a REVOLUTION in Physics, Biology, Evolution, COSMOS,

Who is Lord Prince Prof. MOMCIL DOBREV. The same born in 1963. 1982 had the imprudence in an interview with the newspaper "Narodno mladezh" to state that the Bulgarian Communist Party and the DCMS are MAFIA.

Then, after repressions over his entire family, even more so, Momchil Dobrev's father - Dobrli Duchev Dobrev, a financier who managed associations in various industries, transport engineering, mechanical engineering, and the chemical industry, MADE HUNDREDS OF MILLIONS OF LEVS IN PROFIT FOR THE STATE REPUBLIC OF BULGARIA, Momchil Dobrev was forced to ESCAPE in 1984. to the GERMAN DEMOCRATIC REPUBLIC in the city of Ilmenau, the Technical University. In just one year and three months, MOMCIL DOBREV COMPLETED five years, AND IN JUST ONE YEAR, HE COMPLETED AND TAKED THE WRITTEN EXAMS IN PHYSICS, MATHEMATICS, AND ALL OTHER DISCIPLINES WITH DISTINCTIONS. Therefore, in February 1985, Professor Karl Heinz Goethe invited him to participate in physical experiments in which SUPERCONDUCTIVITY AT ROOM TEMPERATURE WAS DISCOVERED. After that, the secretary of the Bulgarian embassy STOIL STOILOV threatened Momchil Dobrev that if he did not steal the material, in exchange for which he would receive 11 million US dollars and a house in the USA, which proved that this second secretary served the USA and the CIA, his life would be ruined. Despite such threats, Momchil Dobrev did not surrender his Professor Karl Hein Goethe and Professor MANFRED von ARDENE - one of the creators of the nuclear bomb for the Soviet Union, who in 1985, after talking with Momchil Dobrev, declared him the NEXT NOBEL LAUREATE and the genius of the 20th and 21st centuries.

It is no coincidence that at an international conference in 1985, Professor Michael ROTH declared Momchil Dobrev, presenting him to over 500 professors from the WHOLE WORLD, the GENIUS OF THE 20th and 21st CENTURIES!!.

At that time, Momchil Dobrev studied theoretical physics, biology, neurophysiology, medicine, logic, and cognitive psychology, chemistry, various medical sciences, brain sciences, and other sciences.

These are not accidental things, as a first-grade student, Momchil Dobrev, solves math problems for the 304th grade, as a 3rd-grade student solves problems from 6-7th grade on tests in just 10-15 minutes, without anyone dealing with him and without even his family providing him with the appropriate training.

As the heir to the Dobrev Halachev dynasty, Momchil Dobrev follows the principles of honor, dignity of the dynasty., property of the dynasty which are worth BILLIONS.

It is no coincidence that Lord Academician Prof. Momchil Dobrev has an educated strong physicist - a master astronomer, lawyer, economist, engineer, studied archeology, archaeometry, even having licenses as a construction technician to construct buildings.

Stepping on his theories Lord Prof. Dr. Momchil Dobrev, with the help of Prof. Mariola Garibova, 2005 they both developed the "Theory of Universum" and related equipment and made research based on the fact that the chakras of the person who is the energy center are double whirlwinds that work in a specific way.

The results are undisputed and prove a new jade of medicine in the treatment of human diseases - both physically and mentally - holistically - based on the energy of human being.

1.1. Basics of the Cosmological Theory of Information and Vortex Field Theory of Momchil Dobrev Dobrev

1991 Momchil Dobrev Dobrev creates Cosmological theory of information(Dobrev , 2009) and theory of vortex fields (Dobrev , 2012)- the basis of everything. In the same year Momchil Dobrev created two

free energy generators using the theoretical and practical solutions of both theories, creating prototypes, but actually refusing to start regular production because he knows that all scientists and inventors create such generators soon after they are killed.

The real vortex theory proves the existence of swirling fields in the fabrication of matter at the lowest to the highest level, starting from the atomic structure, to the construction of star systems, galactic systems of the universe. On the other hand, the vortex fields are also present in the construction and functioning of the human body.

On the other hand, the cosmological theory of information proves that vibrations are the basis of the existence of all objects in the universe and man in particular. Even at the cellular level there are precisely defined vibrations of precisely defined frequencies and frequency spheres. Each cell, even every organ vibrates with exactly the same frequency when it is in a state of health and certain other ones when it is in a disease state. The deviation from the interval norm of the "healthy" body vibrations proves the opposite that the body is sick.

Swirl fields actually carry, distribute, create both information and energy. There is actually a conversion of information into energy and vice versa. In fact, on the basis of the theory of the vortex fields, the passage of the material in the process of materialization and dematerialization is undisputed, in which the processes do not lose the information. On the other hand, the vortex fields are the basis of matter and antimatter. Swirl fields emit vibrations precisely defined and at specified intervals.

This is the relationship of the vortex fields with the cosmological information theory.

Three distinct principles apply to each swirling system:

There is a force that is at the heart of the whirlwind - in its center, and it controls the entire structure. For each imi structure

swirling forces that cause the structure to strive for cent, swirling forces that cause the structure to strive for external propagation, and a separate force that prevents objects from the structure from leaving the structure itself - that is, has the force of limiting the size of the structure.

Vortex structures are also hurricanes. In the center of hurricanes is peace.

There are chakras in the human body both at the physical level and at the other two levels, which besides supplying information and energy to the respective glands and levels and organs at these levels, but it also raises the energy to the highest level.

The whirling structure that radiates the corresponding vibration - its section

Light is a vortex.

Each electromagnetic wave is a whirl, the point at which both the electric field and the magnetic field are the zero point.

Moreover, the space generating the vortices is geometrically based on the golden section, the numbers phi and pi.

As a consequence of the cosmological theory of information are the pyramids among which the pyramid of the Hypo. This geometric figure represents a field generator in which the antigravitation, metatalization and dematerialisation processes are generated at the respective height points with corresponding coaxial frequency generation or so-called vibration. At the corresponding point of this geometric structure, a precise vibration makes a connection with the spiritual world. The very

geometric structure generates a field structure with specific properties and qualities. At a specific point in the structure of the pyramids with countries in which there are golden coincidences, there is no process of rotting, there is dehitrination, a process of energy influence even on metallic metal objects. Apart from that, these pyramids actually create field structures to balance the energy field of the Earth, ...

Electromagnetic wave is a whirlwind in a straight line.

A basic element in the cosmological theory of information is also to note the basic principle.

When an "entrance door" has a precise vibration to enter this door, it must generate the same vibration frequency spectrum as the corresponding door. This applies to each cell for each process, for each object. Only when the frequency spectrum of the "front door" and the object or the information that can and wants to go through this "door" the energy and the in-house information can enter through the "front door". In the event of interference, the entry through the "entrance door" occurs. Each number, each letter, radiates a certain frequency spectrum. Every word does the same. Here the coincidence is enormous. : is a sacred number that corresponds

2/. Resurrection as a procedure proven by the Cosmological Theory of Information, Theory of the Degrees and Types and Levels of Consciousness – 1991 by Prof. Momchil Dobrev and the Theory of Swirl Fields. The resurrection as a procedure and process applied in ancient Egypt and earlier in Orpheus and the Thracians and Proto-Bulgarians-descendants of the displaced Atlanteans on the Balkan Peninsula.

Here we will only look at the resurrection as a procedure applied in Egypt.

The Egyptian engraving shows the instances that were used in Gepit in the resurrection procedure. This is not only a resurrection process, in which the process of reincarnations is interrupted, but also a rise to the fourth and fifth change of the soul.

The objects used in Egypt for these procedures are visible on the engraving, namely a rod about 1.20 meters long, at its end there is a camber and the other end is curved at an angle of 45 degrees. (Fig 1), (Fig 2).

3.1./THEORY OF THE 16-DIMENSIONAL STRUCTURE OF MATTER - THE CONSCIOUSNESS OF PROF. Momchil Dobrev, AN INTEGRAL PART OF THE 16-DIMENSIONAL DIMENSION OF THE FIELD OF THE UNIVERSE- 2003 AND THE EXPERIMENTS OF LORD PROF. MOMCIL DOBREV FROM 1985, 1991-2003 WITH THE LEVELS OF CONSCIOUSNESS AND THE RAISING OF THE EIGHTH LEVEL OF CONSCIOUSNESS and OPENING OF A PORTAL for TRAVEL OF CONSCIOUSNESS IN THE UNIVERSE with a speed – INSTANTANEOUS .that is.. much greater than the speed of light- THE REAL DENIAL OF EINSTEIN and DIALECTICAL MATERIALISM. The explanation of dark energy and dark matter.

THE ETHER – FIELD STRUCTURE OF THE FIELD which has a precisely defined geometry and contains consciousness at the zero point.

THEORY OF THE UNIVERSE by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva – 2005 AS A GENERAL DESCRIPTION of LIFE IN SPACE and THE UNIVERSE, which encompasses physics, biology, chemistry, genetics, psychology, psychiatry and others.

Theory of the Universe by Prof. Momchil Dobrev and Mariola Garibova Dobreva is based on the model and equations of Momchil Dobrev since 1985-1991 with which the following BASIC POSTULATES and THEORY OF SPECIES AND LEVELS OF CONSCIOUSNESS IN THE UNIVERSE 1991 by Lord Prof. Momchil Dobrev:

THE UNIVERSE CONSISTS OF A MULTIDIMENSIONAL UNIVERSE – WHICH CONSISTS OF 16 LEVELS OF DIMENSION, which includes parallel universes, the essence of which will not be discussed here..

EACH DIMENSION represents a FREQUENCY SPHERE OF DENSITY - A MATRIX, in which dimension is based and rests on a precisely defined FREQUENCY SPHERE..

EACH HIGHER LEVEL OF DIMENSION is SUPPORTED by a PRECISELY DEFINED FREQUENCY SPHERE, WHICH IS HARMONIC and several degrees HIGHER than the previous dimension.

EVERY ADVANCEMENT OF MATTER and FIELD MATTER of ANY BEING in THIS DIMENSION is INVISIBLE for the previous dimension and is then invisible when it is encompassed and it itself resonates on THIS FREQUENCY SPHERE

THE TRANSITION from ONE DIMENSION to the next DIMENSION OCCURS after a precisely defined ROTATION in a precisely defined DIRECTION of 90 degrees ROTATION and RAISING TO THE NEXT HARMONIC LEVEL OF THE FREQUENCY SPHERE of the previous DIMENSION.

EACH DIMENSION HAS A CONSCIOUSNESS that resonates on the corresponding harmonic levels and spectra and frequency sphere.

Human consciousness can rise from one level-DIMENSION TO ANOTHER, after interference of the SOUND SPECTRA and the corresponding FREQUENCY SPHERE OF THE CORRESPONDING DIMENSION.

Consciousness moves at a SPEED MUCH GREATER THAN THE SPEED OF LIGHT. CONSCIOUSNESS MOVES INSTANTLY.

Consciousness can receive information and SEE EVERY OBJECT IN DEPTH and to its structure. Consciousness also has CORRESPONDING TENTATIVE ORGANS.

These conclusions are PROVEN BY THE EXPERIMENTS CONDUCTED BY LORD PROF. MOMCHIL DOBREV SINCE 1985 IN GERMANY, THEN FROM 1991 TO 2003 with precisely defined techniques and procedures, refined and created by Lord Prof. Momchil Dobrev.

ALL this is supported by the ETHER - ITS FIELD STRUCTURE, which has a geometric structure.

For this purpose, Lord Prof. Momchil Dobrev AS LAST AS 1991 CREATED A NEW METRICS, A NEW TOPOLOGY, which is based on the principles of nature - the golden cross-section, the Fibonacci series, the fractal structure, holographic inclusion of information.

AT THE BASE OF THE FRACTAL STRUCTURE is the STRUCTURE of the FIBONACCI SPIRAL AND LOGARITHMIC CURVE. BASIC PRINCIPLE - REASON FOR THE MOVEMENT in the universe is that the FIBONACCI SERIES - WHICH IS ITS CORRESPONDING SPIRAL MOVES ACCELERATELY - the pure 1,1,2,3,5,8,13,21,34,55,89, etc. PROVE THE ACCELERATION OF THIS MOVEMENT.

THIS MOVEMENT IS ALSO ONE OF THE FORCES AND CAUSES FOR THE MOVEMENT OF THE PLANETS IN EVERY SOLAR SYSTEM, IN EVERY GALAXY.

FROM the experiments of Lord Prof. Momchil Dobrev 1991 follow the REASONS FOR THE MOTION OF THE PLANETS in ONE "SOLAR SYSTEM" and THAT THEY ARE BORN from the MOTION OF THE CORE OF THE RESPECTIVE "SUN", which causes the generation of the corresponding VORIDES. FROM these experiments come out the three equations and forces that hold each planet on the corresponding orbit depending on the energy electromagnetic information POTENTIALS. Unlike the equations of KEPLER and NEWTON, which are descriptive and do not give the ORIGINAL CAUSE FOR THE MOTION OF PLATES – WHY DOES IT MOVE LIKE THIS, the equations of Lord Prof. Momchil Dobrev DESCRIBES AND GIVE THIS SOLUTION!

THIS IS ON THE BASIS OF THE VORTEX FIELDS AND VORTEX CAUSED BY THE ZERO POINT FIELD. OF THE UNLIMITED EQU- ENERGY - INFORMATIONAL CONSCIOUS POTENTIAL.

EVERY OBJECT in the universe HAS CONSCIOUSNESS at its respective level.

ETHER is a STRUCTURE of the FIELD, which contains all 13 levels of consciousness, penetrates all the innermost levels of all matter. ETHER is the essential field of consciousness that governs all levels of consciousness, of FREQUENCY SPHERES of all SFs

EVERY OBJECT in the universe HAS CONSCIOUSNESS at its respective level.

ETHER is a STRUCTURE of the FIELD, which contains all 13 levels of consciousness, penetrates all the innermost levels of all matter. ETHER is the essential field of consciousness, which governs all levels of consciousness, of FREQUENCY SPHERES of all SPHERES OF CONSCIOUSNESS, of matter and the corresponding dimensions of density which are 16 DIMENSIONS, of SPIRITUAL WORLDS which are SEVEN IN NUMBER as each spiritual world contains 7 /seven/ sub-levels.

THIS FIELD STRUCTURE is infinite, contains a fractal structure of description and a holographic form of space, conscious, self-organizing, self-learning.

BASIC ELEMENTS AND POSTULATIONS of ETHER:

- Fractal description – the part CONTAINS ALL INFORMATION

Holographic form

- LOGARITHMIC FORM of LIFE in the universe – plants, animals, man, cosmos, planets, stars

-

ETHER - this field conscious structure connects everything in space, time, consciousness, all levels of FREQUENCY SPHERES and all types of matter.

ETHER HAS A PRECISELY DEFINED GEOMETRIC STRUCTURE, IN THE CENTER OF WHICH IN A CYCLE OF CHANGED BY LORD PROF. MOMCHIL DOBREV KLEIN'S BOTTLE ARE CONNECTED ENERGY, CONSCIOUSNESS. FROM THERE COMES THE ENERGY OF THE ZERO POINT, WHICH IS INEXHAUSTIBLE ENERGY THAT CAN BE OBTAINED.

THE ENERGY OF THE ZERO POINT IS ACTIVATED AT EXACTLY SPECIFIC INPUT FREQUENCY CHARACTERISTICS OF COMPLETION IN AN EXACTLY SPECIFIC DIRECTION OF THE FORCE OF LORD PROF. MOMCHIL DOBREV DISCOVERED DURING HIS FUNDAMENTAL EXPERIMENTS IN 1991. This structure is also realized through precisely defined two GEOMETRIC FIGURES WHICH ROTATE WITH PRECISELY DEFINED FREQUENCIES - ANGULAR VELOCITY IN DIFFERENT DIRECTIONS.

The information in this field structure is organized on a fractal - holographic principle, logarithmic principle, matrix principle.

THE ETHER structures matter at all levels from elementary particles through atoms to molecules.

3.2/. In 1991, 2003 Lord Prof. Momchil Dobrev CREATED A THEORY OF THE STRUCTURE OF CONSCIOUSNESS AS AN ENERGY INFORMATION SYSTEM IN THE UNIVERSE THAT FORMED MATTER. Based on experiments conducted systematically since 1985 in Germany, then 1991 in Bulgaria and until 2003. Lord Prof. Momchil Dobrev CREATED HIS THEORY OF THE STRUCTURE AND LEVELS OF CONSCIOUSNESS AS PART OF THE UNIVERSE.

This is a structure that consists of 13 levels, with only 12 levels being accessible to HUMAN SOULS.

AS THE DIMENSIONS OF THE UNIVERSE FIELD IN THE UNIVERSE ARE 16, so each dimension has CONSCIOUSNESS. THIS IS AN INFORMATION STRUCTURE that works on a matrix principle – fractal, holographic.

THE MOVEMENT along the PATH OF CONSCIOUSNESS from the THIRD LEVEL OF CONSCIOUSNESS, which is a person up the height to 16, does not happen in the same way.

EACH LEVEL OF CONSCIOUSNESS exists in a specific SOUND HARMONIC COHERENT MATRIX, and it has precisely defined frequency harmonic coherent characteristics that are harmonious at the lower level.

THE STRUCTURE OF THE FIELD OF CONSCIOUSNESS consists of:

- Levels of consciousness. In reality, the levels are 13 levels of consciousness, with 12 levels accessible to souls.

-

- A MAIN CHANNEL, through which a transition from one level of consciousness to another, subsequent level of consciousness occurs.

RULES FOR TRANSITIONING FROM ONE LEVEL OF CONSCIOUSNESS TO ANOTHER LEVEL OF CONSCIOUSNESS.

Each level of consciousness has a sound matrix that defines it.

In the presence of a sound complex that encompasses the sound matrix characteristics of each level of consciousness, and they are combined HARMONICALLY one into another, one can move from one level of consciousness to another level of consciousness.

If the harmonic sound matrices of two or three levels of consciousness are contained - then the consciousness of an individual can pass through these levels and stop at the last one whose sound matrix corresponds to the last level.

EACH LEVEL OF CONSCIOUSNESS HAS THERE ALSO CORRESPONDING SENSORY ORGANS.

LAW - THE THOUGHT of a person CONTROLS the consciousness of where to move in the universe.

With these experiments from 1985 in Germany to 2003 inclusive, the CONSCIOUSNESS OF Lord Prof. Momchil DOBREV RAISES TO THE EIGHTH LEVEL OF CONSCIOUSNESS and THROUGH THOUGHT IS CONTROLLED in the UNIVERSE.

IF THE MOTION IS TOWARDS THE UNIVERSE, THEN THE CONSCIOUSNESS STARTS TO MOVE IN THE DIRECTION DETERMINED BY THOUGHT.

EXPERIMENTAL PROCEDURE FOR OPENING A PORTAL OF CONSCIOUSNESS THROUGH WHICH THE CONSCIOUSNESS CAN SEE EVERY OBJECT IN THE UNIVERSE - from the smallest level to the largest level.

1/ Initially, with eyes closed, a person imagines a ball of fire above his head. With his mind he begins to move this ball from the crown of his head to the first chakra and back. At one point, he speeds up with his mind the process of movement of this ball of fire from the 7th to the first chakra and back. We are talking about the main 7 / seven / chakras in the human body. Although there are many more. With his mind, he allows this movement of the ball of fire to move from top to bottom and back.

2/. Depending on the polarity, which is different in men and women, mentally at the level of the seven main chakras in the human body with the POWER OF THOUGHT, SOLAR DISCS are created that ROTATE in a certain direction.

DEPENDING ON THE POLARITY, respectively, discs 1,3,5,7 rotate to the left, while the others 2,4,6 rotate to the right.

And respectively 1,3,5,7 rotate to the right, and the others 2,4,6 rotate to the left. WHEN LISTENING TO A PRECISELY SPECIFIC SEQUENCE OF SOUNDS THAT CORRESPOND TO and COVER ALL FREQUENCY SOUND CHARACTERISTICS-MATRIXES of EACH OF THE LEVELS OF CONSCIOUSNESS THROUGH THE CHANNEL OF CONSCIOUSNESS, the eighth level of consciousness is reached without problems, after the procedure with the light ball and the rotation of the corresponding solar disks 1,3,5,7 in one direction and 2,4,6 in the other direction is done.

This movement accelerates the process of coherence and synchronization.

3/. At the next moment, a beam of light is released from the first to the seventh chakra or the ball of light from 1/. A point from the first to the seventh chakra and upon reaching the seventh chakra, with the power of thought this ray is directed at 45 degrees to the visual screen. This is the VISUAL FIELD OF CONSCIOUSNESS.

Since the visual FIELD OF CONSCIOUSNESS is at 45 degrees, the thought and the golden ball are arranged at a 45 degree angle to the horizontal plane between the eyes.

At 45 degrees is the VISUAL SCREEN of the PERSON and the VISUAL SCREEN OF HIS CONSCIOUSNESS.

All this time, around the person with his eyes closed, music is flowing, which contains the harmonic frequencies of the 3rd dimension, the 4th dimension and the 5th dimension.

With the corresponding sound vibration and harmony of the frequencies of the levels from 3 to the eighth in music, THE EIGHTH LEVEL OF CONSCIOUSNESS IS REACHED.

FROM THE SIXTH TO THE EIGHTH LEVEL OF DENSITY and ACCORDING TO CONSCIOUSNESS is the CARRIER OF "DARK ENERGY" for current physicists.

There is a SYNCHRONIZATION, HARMONIZATION of the SOUND WAVES WITH THE ACTION OF THE GOLDEN BALL and ITS MOVEMENT€

Then after the ball is directed at 45 degrees to the VISUAL SCREEN OF CONSCIOUSNESS, with THOUGHT the person says exactly as he wants to see or feel.

IMMEDIATELY after "letting go" of the thought at that very moment of the golden ball with the corresponding energy and frequency coming out before the "EYES" OF HIS CONSCIOUSNESS IS THE OBJECT THAT IS DESIRED TO BE SEEN by the person.

ACCORDING TO THE THEORY OF THE STRUCTURE OF CONSCIOUSNESS, THE FOLLOWING CONCLUSIONS FOLLOW:

1/. MATERIALIZATION of THOUGHT FORMS OCCURS BETWEEN 6 AND 8 LEVELS OF CONSCIOUSNESS.

SUCH healers as Sai Baba and other healers had access to the SIXTH LEVEL OF CONSCIOUSNESS when only at the thought of the illness of the person who was against them, a powder substrate materialized in the HAND, which Sai Baba gave to the patient, and after which the patient was cured.

FROM 6 TO 8 LEVELS OF CONSCIOUSNESS, THERE ARE POSSIBILITIES FOR THE MATERIALIZATION OF EVERY THOUGHT, NATURALLY THE OBJECT OF THE THOUGHT IS CONTROLLED.

At these levels, MATERIALIZATION HAPPENS, especially at the sixth LEVEL and of BAD "THOUGHTS FORMS, WHILE materialization of "GOOD THOUGHT FORMS" occurs from the 6th to the 8th level of consciousness.

THE EIGHTH LEVEL OF CONSCIOUSNESS IS LOCATED CORRESPONDINGLY IN THE HARMONIC OF the corresponding harmonic matrices of these levels of energy chakras which are harmonious to the main seven chakras in the third dimension of man.

THOUGHT CAN DIRECT CONSCIOUSNESS and not only to the Structure galaxy, star, but also to the microworld. THROUGH THOUGHT CONSCIOUSNESS PASSES IN A SECOND where it wants to be.

THIS IS POSSIBLE only and based on the fractal structure of the UNIVERSE and the possibilities of CONSCIOUSNESS to MOVE INSTANTLY in the corresponding structure - microstructure, megastructure or other.

THE EXPERIMENTS OF LORD PROF. MOMCHIL DOBREV

Using these rules, LORD PROF. MOMCHIL DOBREV OPENED THE CORRECT CHANNEL – PORTAL, which ANY PERSON CAN OPEN to the universe and see what he wants to SEE even if he is BILLIONS OF LIGHT YEARS away.

THE EXPERIMENTS of LORD PROF. MOMCHIL DOBREV are repeatable, and give the same result.

Naturally, during this procedure, NOISE or SHOUTING screams in the environment should not be allowed. THIS WILL DISTURB THE MOVEMENT THROUGH THE CHANNEL – PORTAL and will immediately return the person to his physical body.

On the basis of the Cosmological Information Theory and Vortex Theory Theory, Mariola Garbova and Momchil Dobrev elaborate 2005. Theory of Universum.

2016 ON ONE EVENT – LECTURE IN FRONT OF MORE THAN 70 PEOPLE LORD PROF. MOMCHIL DOBREV SHOWED THE SYSTEM AND HOW TO OPEN A CHANNEL – PORTAL PERSONALLY and CAN SEE ANY OBJECT IN SELENA AT ONCE \$ INSTANTLY.

THESE EXPERIMENTS PROVE THAT CONSCIOUSNESS MOVES AT A SPEED OF IMMEDIATE – That this speed is much greater than the speed of light.

The model of consciousness - levels, degrees, types, topology, metrics.

1991 Lord Prof. Momchil Dobrev conducted a series of the following experiments.

In this whole process there is music that combines the harmonic frequencies - spectrum of the third dimension - of the fourth and fifth dimensions.

POSTULATIONS that follow from these experiments:

CONSCIOUSNESS moves at a speed much greater than the speed of light - INSTANTANEOUSLY, because CONSCIOUSNESS HAS A FRACTAL - HOLOGRAPHIC STRUCTURE, with basic CHARACTERISTICS - THE FIBONACCI SERIES - THE GOLDEN SECTION. The information at one point is contained at every point in the universe.

CONSCIOUSNESS can go anywhere at any moment directed by the THOUGHT of a MAN., THOUGHT is the one that DIRECTS CONSCIOUSNESS.

THERE ARE 13 LEVELS OF CONSCIOUSNESS, with the soul having access to ONLY 12 LEVELS OF CONSCIOUSNESS..

Upon reaching these levels of consciousness, the person concerned has the opportunity to:

At the SIXTH LEVEL - MATERIALIZATION of THOUGHT - of INTENT, - OF DESIRE - be it to cure a specific person or something else.

SAI BABA had access to the sixth level of consciousness where through his thought he materialized his desire, prayer to cure the person concerned and then received materialized dust in his hand.

THE EXPERIMENTS of Lord Prof. Momchil Dobrev from 1985-1991, and PUBLIC EXPERIMENTS 2016-2017 in front of hundreds of people

4/. In the research institute Dobrev - Halachev JSC. there have been performed experiments of testing that prove this. According to the cosmological information theory to reach the chakras of the fourth and fifth measure of the soul, vibrations should be raised. this was in Egypt with a generator. (Fig 3)

According to the cosmological theory of information, when a man raises his vibrations so that under 45 degrees with a closed eye he generates a light beam with the corresponding vibrational frequency, then that light beam and his eyes - with closed eyes below 45 degrees - pass through a specific symbol - the symbol of Anch, which is also known by Atlantis and the Atlanteans. This is the symbol of the elevation and the corresponding look. (Fig 3).

Fig. 3

Another engraving that proves this process of resurrection and elevation is the graph of how Osiris resurfaces.

In one of Osiris' hands, he holds a hook - a rod, with a camber at one end as the rod is curved under 45 degrees. In the other hand Osiris holds a bat, which actually is a vibrator.

The point is actually to stimulate the vibrational energy point of Confucius, which point corresponds to the entrance of the thread to the soul of the person concerned.

Only when this cycle is closed and the stimulation of this point results in the process of elevation, in which it is possible to stop the process of reincarnation of the soul in the next life. This is a one-time process, however, which must be in sync with the harmonized frequencies of the universe.

Indeed, the pineal gland is a gateway to both the energy and information world of the universe.

This portal, however, must be followed by specific procedures to be opened.

By making a comparison and analogy, all this is proved once again. Namely the system of the 8 chakras of man proves man's capabilities for these processes, namely:

The three chakras of the pineal gland prove that the angle between the third eye and the chakra chakra at an angle of 45 is the chakra number 11 passes (Fig 3).

The elevation is a motion in which the vibration is lifted so much the heights are the frequencies of the fourth and fifth dimension of the dimensions that support the corresponding number of chakras - energy center of every soul.

When vibrations are released at frequencies corresponding to the fifth dimension, when natural

5/. Tools for accessing the information field of the universe, of the souls, for possible reliquary and the drawing of information

The tools actually have three.(Fig. 4), (Fig.5).

Fig. 4

The first symbol is Ankh. This symbol, commonly known as "the key of life," "the Nile's key," the "life band," "the node of life," "the Egyptian cross," is called U + 2625.

In the traditions of Egypt, this symbol symbolizes the birth of the life of life. This symbol combines two symbols - a cross, that is the symbol of life and a circle as a symbol of eternity. Together, the two symbols indicate immortality. This offends the insult of the female and male deity, Osiris and Isis. It is a union between the earthly and the heavenly.

Fig 5.

The UAC symbol denotes power. It is related to the Ankh and Jed symbols, and depicts a rod that holds Pharaohs, gods and influential faces.

This rod has actually been used both as and for generating the cosmic healing power, The Jed symbol actually represents a generator of precisely defined frequencies. Oi consists of a vertex, a vertical structure, a characteristic shape, and well-defined horizontal "lines" that are only four. These four horizontal "plates" actually represent a structure for generating energy that actually accumulates between the pages. In fact, there is a standing wave - a vortex, which is a battery for

energy storage. This is between the four dishes. From the base to the first plate is a method of transmitting energy.

The bas-relief which includes all three symbols as well as the symbol of a snail and a vessel. The snail is a vortex wave. Ie. the combination of the three symbols is a vibration generation that transmits precisely defined energy at a specific point and unlocks resonance to generate energy and unlock other dimensions that result in unlocking energy for building large objects as well as for unlocking cosmological irrationality for healing, and unlocking fourth, fifth and other dimensions for reading information in the universe.

6). PROCEEDING OF REMOVING AND RESURRECTING AND RECEIVING INFORMATION FROM THE SPIRITUAL WORLD and Thinking Processes

The real pituitary is the organ that is the connection of man with the spiritual world, with the world of information about everything in space and the whole universe. The pituitary is also the connection of thought to its real function of generating energy and information, of obtaining information to induce actions to change energy processes and phenomena.

The process of elevation in Egyptian civilization took place by placing the rod at point A, which point is the point where the thread of the spirit is connected with the physical body. Then generating the corresponding vibration to generate energy and which energy goes in the direction of the pituitary - point B and below 45 degrees to pass through 11 chakras, to pass through the human's mental screen to pass through the Ankh sign from where it can processes, information, and more are tracked.

It is a fact that the mental screen is a screen that is less than 45 feet in the horizontal view of the human eye. The thinking screen is this screen through which only energy and thought must pass, and if this thought is generalized with the concussion of high vibration to pass through the sign of life(Fig 6).

A very important condition in this process is the generation of such a high vibration to open the respective channels and to enter into the corresponding subsequent three-dimensional manifestation, the fourth and fifth dimensions, which give it greater access to high energies.

Fig.6

The procedure to be followed during the lead time is based on the generation of such vibration with light energy to be generated in the vortex field of the human pituitary.

The high field field whirl only generated by light wave and low erection can only open the channel to access the high fourth, fifth, null and other dimensions.

Based on the cosmological theory of information and vortex theory, it is only in the interference of the leading signal and the channel of the corresponding dimension that man's thought can continue on this path of entering into the deep and higher dimensions of the universe and the spiritual world.

It is important to know that only when the light vortex field with the corresponding high vibration enters the sign of Ankh, human thought can have energy and information access to the higher dimensions.

This parallel of the facts in Egyptian drawings and the facts of the achievements of the cosmological theory of information and theory of the swirl fields of Momcilo Dobrev Dobrev give and conclude that the Egyptian civilization had the capabilities, the traces, the experience of such access of human thought to the higher dimensions in the duo-ecumenical world.

This proves a great development of this civilization.

This parallel of the facts in Egyptian drawings and the facts of the achievements of the cosmological theory of information and theory of the swirl fields of Momcilo Dobrev Dobrev give and conclude that the Egyptian civilization had the capabilities, the traces, the experience of such access of human thought to the higher dimensions in the duo-ecumenical world.

This proves a great development of this civilization compared to our modern civilization.

The knowledge of these processes also proves that the signing of these processes and technologies implies that the Egyptian civilization and the former before Her Atlanta and the civilization of the proto-Bulgarians, the Thracians had the power of access to energy sources, telepathy, teleportation, antigravity.

This is based on the conclusion that, as a consequence of the Cosmological Information Theory and Vortex Theory, knowledge of anti-gravity access to zero-energy energy, free energy generators, access to free energy, and other sources follows.

These processes have also been used to unlock the space energy channel that can cure universally every person.

These processes can be used to open channels of the fourth, fifth and next dimensions, which ziggata generates energy from the absolute, and create the possibility of shifting - teleportation, and movement through the worlds.

7./. THESE EXPERIMENTS REALLY REJECT DIALECTICAL MATERIALISM and the following statements based on it.

SEPARATELY FROM THIS more than 20 YEARS ago Lord Prof. MOMCHIL DOBREV REJECTED THE BASIC LAWS OF AND THESE OF HEGEL of dialectics.

Dialectical materialism is a scientific philosophical worldview, one of the components of Marxism. The subject of dialectical materialism is the most general laws of development of nature, society and thinking, those general principles and foundations of the objective world and its reflection in human consciousness.

The main constants of dialectical materialism are:

1. Human being is material and objective.
2. Human consciousness is a subjective reflection of objective reality.

3. Being determines consciousness.
4. The existence of people is social and man is man insofar as he exists as a social unit.
5. The meaning of existence is in its historical projection, i.e. in the material consequences of our activity in history.
6. Human society is divided into classes.
7. The engine of historical development is the class struggle, which is waged between the exploited proletarians and the exploiters capitalists.
8. The subject of this struggle are the tools of production. Their owners exploit the labor of the proletarians, who do not own tools of production.

WITH THE EXPERIMENTS of Lord Professor MOMCHIL with CONSCIOUSNESS IT IS PROVEN that CONSCIOUSNESS MOVES MATTER, and IT IS PRIMARY, and matter is SECONDARY. CONSCIOUSNESS IS PRIMARY AND EVERY OTHER MOVEMENT IS SECONDARY€

REALLY the entire dialectical materialism IS USED by the Masonic corporate oligarchy to manage the processes in societies, economics, philosophy, science, scientific progress – to suppress it, to deter it

20 YEARS AGO, Lord Prof. MOMCHIL DOBREV REJECTED HEGEL'S IDEALISTIC DIALECTICISM, which was published in dozens of his articles.

Matter and Consciousness

Dialectical materialism is based on the basis of the primacy of matter and the derivation of consciousness from being. The being of matter has an absolute character. Matter is indestructible and indestructible, it is eternal and infinite. In the endless change of the relative properties and forms of existence of matter, such forms of its existence as movement, space and time remain. The world – these are infinite in time and space forms of movement of matter.

THE EXPERIMENTS OF LORD PROF. MOMCHIL DOBREV with CONSCIOUSNESS and the THEORY OF THE TYPES AND LEVELS OF CONSCIOUSNESS DEVELOPED BY HIM, as PART OF THE THEORY OF THE UNIVERSE subsequently, and THE STRUCTURE OF THE UNIVERSE, prove that CONSCIOUSNESS DETERMINES BEING, it is primary, it is leading.

CONSCIOUSNESS IS THAT WHICH CREATES MATTER.

THIS IS PROVEN AT THE GENE LEVEL by the RESEARCH of Lord Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva and the LAW OF GENE ENERGY-INFORMATIONAL AAPTACY CREATED BY THEM, which law PROVES THAT CONSCIOUSNESS CAUSES AND CREATES MATTER.

Already 20 years ago, Lord Prof. MOMCIL DOBREV denied the THREE BASIC LAWS OF DIALECTIC:

1/. Law of unity and struggle of opposites – a universal law of reality and its knowledge of human thinking, which expresses the essence, the "core" of materialistic dialectics. REALLY Lord Prof. Momchil Dobrev proved that there is no STRUGGLE OF OPPOSITES but an interaction that LEADS TO THE RAISING OF NGO – HIGH LEVEL OF HARMONY of THIS STRUCTURE – to a NEW – HIGHER LEVEL OF CONSCIOUSNESS. There is only interaction and interdependence between opposites. DIPOL IS THE BASIC STRUCTURE OF MATTER.

2/. Law of the transition of quantitative accumulations into qualitative changes – one of the basic laws of dialectics, which explains how, in what way movement and development occur. This law was formulated by Georg Wilhelm Friedrich Hegel, later "recognized" by the theorists of Marxism.

Lord Prof. Momchil Dobrev PROVED with research in psychology in training, education that QUANTITATIVE ACCUMULATIONS NEVER LEAD TO QUALITATIVE CHANGES, if this does not happen at a CONSCIOUS LEVEL.

3/. Law of negation of negation - one of the basic laws of dialectics.

Lord Prof. Momchil Dobrev proves the INSUFFICIENCY OF THIS LAW, ILLUSION, CAUSALITY, INCONSEQUENCE of this law.

The hidden ideology of Finanosov The banking resource-technological mafia-styled Materialism of Lord Prof. Momchil Dobrev and the real Hegelian Theory according to Lord Prof. Dr. Momchil Dobrev

Lord Prof. Momchil Dobrev's criticism of Hegel and Karl Marx.

In reality, since the 18th century, the FINANCIAL-BANKING resource-technological MAFIOTIZED MATERIALISM of Lord Prof. Momchil Dobrev has been operating internationally, not the historical materialism of Karl Marx.

Thesis number 1 - in the beginning there was matter.

Formulates the principled supremacy of matter, without any evidence whatsoever, and makes deliberately false conclusions. Actually, based on the following theories developed by Lord Prof. Momchil Dobrev - Cosmological Theory of Information, Theory of Vortex Fields, Theory and Practice of Free Energy, Theory of Information-Energy Medicine, Theory of the Universe, Theory and Practice of Energy-Information Genetics, Energy-Information Psychology and Energy-Information Psychiatry, Spirit - Consciousness - Thought is primary. Then there is matter.

Thesis number 2 - BEING DETERMINES CONSCIOUSNESS

I.e. economic conditions / being / determine the thinking and personality of a given individual / his consciousness /.

According to the above-cited theories of Lord Prof. Momchil Dobrev, spirit - consciousness - thought determines being, and not vice versa.

As early as 1933, Sigmund Freud criticized both Hegel and Marx. Even the undoubted fact that different people, races and nations behave differently under the same economic conditions excludes the absolute power of an economic moment. "

Based on this "erroneous" theory, Marx develops his historical materialism, that only the economy and ownership of the means of production are decisive.

Historical materialism believes that ultimately goods, products and property determine the course of history, since through them social classes are established.

The financial banking resource technological mafia materialism created by Lord Prof. Momchil Dobrev proves after a complete analysis of the history of finance, of the economies of countries throughout the world since the 13th century, that bankers - financiers, generating and creating conflicts, wars and others, make history.

That is, the financial banking resource technological mafia materialism created by Lord Prof. Momchil Dobrev - Halachev is the truth, and the historical materialism of Karl Marx is manipulation.

THESIS number 3 - history is the history of class struggles..

Marx really believes that all human history can be reduced to class struggles.

Marx sees history only as the history of class struggle, with the exception of prehistory. He distinguishes between separate stages of development.

In reality, since the 18th century, the FINANCIAL-BANKING resource-technological MAFIA-INFORMED MATERIALISM of Lord Prof. Momchil Dobrev has been operating internationally, not the historical materialism of Karl Marx.

THESIS "4 - the class struggle necessarily leads to the dictatorship of the proletariat, and in the end all classes will "suffer".

8 /. Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva THE LAW of ENERGY- INFORMATION GENE ADAPTATION SUBJECT OF THE PRACTICAL RESEARCH - A study that proved energy information gene adaptation is ONE OF THE IMPOSSIBLE PROOFS THAT CONSCIOUSNESS AS AN ENERGY INFORMATION SYSTEM FORMES and CREATES MATTER with consciousness or COMMANDS THE CREATION OF MATTER with consciousness.

A NEW VIEW and PROOF OF REAL PHYSICS, BIOLOGY, COSMOS.

THIS PROVES and REJECTS DARWIN'S THEORY AND DIALECTICAL MATERIALISM.

Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva THE LAW of ENERGY- INFORMATION GENE ADAPTATION SUBJECT OF THE PRACTICAL RESEARCH - A study that proved energy **information gene adaptation is ONE OF THE IMPOSSIBLE EVIDENCES FOR THE REJECTION of Darwin's evolutionary theory and Dialectical materialism.**

A study that proved Consciousness - energy information gene adaptation

This study proves the influence of the environment and more precisely the influence of the energy system of a person and a group of people on the energy system of the child - a young person who is in the process of growth and development between the ages of 3 to 18 years.

From the practice of Prof. Momchil Dobrev and Prof. Mariola Garibova it is proved that you also think of the person himself, the thoughts of other people, loads from previous lives, loads created by the present life, loads from other people, energy influence

From the practice of Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva it follows that when a child is in the phase of its development, the energy-information field of the parent with whom the child lives forms and influences and causes an energy-information adaptation, which is reflected. in the same physical forms - height, size, thickness,

The energy information field of the parent with whom the child lives more determines the shape and size of the child's physical body.

The energy information field of the parent and his feelings of love, care, attention, respect determines the shape and size of the child's physical body.

The energy information field of the parent, including feelings, thoughts, verbal and nonverbal communication affects the shape, the amount of development of the child's physical body.

Depending on the dominant role of the parent in a family, this affects the formation of the child's physical body - size, size and others.

When the energy information system of the father is dominant, it affects the physical forms of the child.

They follow the size and physical shape of the parent.

The law proves that the energy information field of the parent influences the material structure, respectively the energy information field of the child, the formation of physics, the physical form - size, dimensions, of the child.

The energy information field of the parent forms the physical body of the child, and before that the energy information field of the parent forms the energy information field of the child. It in turn forms matter.

Ie the energy information field of the parent forms the energy information field of the child, which in turn forms his physical - material body.

Ie this proves that the energy information field forms matter.

THE LAW OF FORMATION OF MATTER FROM THE ENERGY INFORMATION FIELD OF THE DOMINANT.

33 families who have adopted children were studied.

One third are families who, as a family with a father and mother, have raised the adopted child up to the age of 20.

One third are families whose one family member has either died or separated from the mother - with the children remaining with the mother for upbringing after the age of 7-13.

The result proving the energy information adaptation is the following:

When considering the primary signs of children, the following patterns are observed. Adopted children grow and acquire primary features - body structure, muscle structure, volume - thickness, groin, leg and arm bone structure, leg and arm muscles, body structure - with abdomen, without abdomen on the face who grow them become a real copy of them.

This also applies to growth.

After studying the actual parents of the adopted children - their structure - muscular, and other height, volume, thickness, it is proved that their genetically adopted children have nothing to do with their genetic parents. Growth and size have nothing to do with the actual parents of the adopted children.

No weight, no body structure, no thickness, no bone and muscle structure.

Adopted children accept the marks of their adoptive parents in every way. And mostly to the dominant parent. If the young organism is brought up or lives with only one of the parents, then it accepts the marks of that parent - whether it is a mother or a father.

Even the presence of a tummy in the adopter - especially the mother, determines the presence of a tummy in the adopted child. This is observed in all 33 surveyed families. Due to the huge database and the coincidence of the traits of the adopted child with the traits of the adoptive parents in this material, it is not possible for us to present them. We present only the conclusions.

Ie there is indisputable evidence of induced forced energy information gene adaptive modification of the adopted children regarding the adoptive parents - the parents who adopted and raised him from an early age between 3 and 18 years of age.

READING DNA DIFFERENTLY BECOMES AND DEPENDS on the folding of the GENE, its TWISTING or non-twisting, as well as on the field itself that is created around the gene.

THE TWISTING or non-twisting of DNA also occurs as a result of the ENERGY INFORMATION FIELD around the person and his body. The twisting or non-twisting of DNA depends on the overall energy-information field around the person.

THE INFLUENCE of this energy information field around a young person which includes all components of information - emotions, thoughts, feelings, words, sounds, etc. is MOST WHEN this young person is in the process of development.

THE ADAPTATION of the energy information field and its DEPENDENCE ON the energy information field of the people with whom a young person lives in the same place in a family environment, in a living and environment, is maximal in the process of development and growth of the young person.

THE FIELD STRUCTURE OF DNA Around the energy information field around the young person gives instructions on how to read the gene - HOW and how to express it - expressed.

The field structure of DNA DEPENDS on the FIELD STRUCTURE OF THE ENVIRONMENT, on the FIELD STRUCTURE OF THE ENVIRONMENT AROUND DNA itself.

The result proving the energy information; the ion adaptation is as follows:

When examining the primary characteristics of children, the following patterns are observed. Adopted children grow up and acquire primary features - body structure, muscular structure, volume, - thickness, slack, leg and arm bone structure, leg muscles and arms, body structure - with abdomen, no abdomen who grow them become a real copy of them .

This also applies to growth.

After studying the actual parents of the adopted children - their structure - muscular, and other height, volume, thickness, it is proved that their genetically adopted children have nothing to do with their gene parents. Height and size have nothing to do with the actual parents of the adopted children.

Neither weight nor body structure, nor thickness, nor bone and muscle structure.

Adopted children accept the signs of their adoptive parents in every respect.

Even the presence of a tummy in the adopter - especially the mother, determines the presence of a tummy in the adopted child as well. This is observed in all 33 families studied. Due to the huge database and coincidence of the adopted child's characteristics with those of the adoptive parents, it is not possible for us to present them. We present only the conclusions.

Ie There is undisputed evidence of a compulsory energy-informative gene adaptive modification of adopted children regarding adoptive parents - parents who adopted and raised them from infancy between 3 and 18 years of age.

The information-energy field of the adopted children is directly and immediately influenced by the energy-information field of the parents or the parent with whom most of the time the child lives in one place in one dwelling and respectively these young people grow and acquire the primary features - body structure, structure of the muscles, volume, - thickness, groin, structure of the bones of the legs and arms, of the muscles of the legs, and arms, structure of the body - with the abdomen, without the abdomen of the persons raising them become their real copy.

This also applies to the height, structure, size of the human parts - arms, legs, torso, shoulders.

The lower sketches prove the above conclusions: the solid line shows the shapes of the adoptive parent and the child, and the dashed line shows the dimensions and shape of the child's true parents - his biological parents.

THE CONCLUSIONS are that the CONSCIOUSNESS which is the informational energy matrix of the HUMAN-PARENT influences the same consciousness of the adopted child.

That is, THERE IS A TRANSFER of CONSCIOUSNESS - information from ONE CONSCIOUSNESS of one person to ANOTHER CONSCIOUSNESS of another person, which CONTROLS the GENE of the child, which explicates and translates the information from the parent.

CONSCIOUSNESS IS THE BASIC STRUCTURE OF THE UNIVERSE.

CONSCIOUSNESS as an INFORMATIONAL ENERGY SYSTEM CREATES and is the REASON FOR THE CREATION OF MATTER - CONSCIOUS MATTER.

8.1./ LAW OF CONSCIOUSNESS-INFORMATIONAL ENERGY GENE ADAPTATION from 2008 by Prince Lord Prof. Momchil Dobrev and Mariola Garibova-Dobreva - REAL DENIAL OF DARWIN'S THEORY.

8.1.1/. Darwin's theory of evolution

Darwin's theory of evolution is a scientific theory of the development of life on Earth. According to this theory, the current diversity of species living on Earth is a consequence of gradual processes that occur over a long period of time, during which organisms develop from simple to more complex, changing, adapting to the environment. According to Darwin's theory of evolution, all organisms have a common origin from a single cell. The creator of the theory of evolution is Charles Darwin. In reality, the ground for this theory was prepared long before by other thinkers and creators. Before Darwin, at the end of the 18th century, the Scotsman James Hatton († 1797) published the book "Theory of the Earth". According to him, the current appearance of the Earth should be explained by the slow action of uniform forces over a very long period of time. That the Earth is old, millions of years old, although he does not dare to say exactly how many, is also the position of the famous British geologist Charles Lyell († 1875). In the same way, Darwin's grandfather, Erasmus Darwin († 1802), also believed that all organisms on Earth originated from a common ancestor-ancestor. Even the French scientist Jean-Baptiste Lamarck († 1829) was the creator of his own theory of evolution. This theory also preceded Charles Darwin's theory. It differs in its view of what the driving factors of evolution are. In contrast, Darwin is considered systematic, analytical and precise in his views and conclusions. He supported all this with research and several published works.

*On November 22, 1859, Darwin's book, *The Origin of Species* (full title: *The Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life*), was published.*

In his book, Darwin presented "a long argument" of detailed observations, conclusions, and discussed all possible counterarguments.

At the same time, the only hint that Darwin made about human evolution was in the restrained sentence: "light will be thrown upon the origin of man and his history."

Darwin's theory is contained in the very beginning of the book:

"Considering that more individuals are born of a species than can possibly survive, a struggle for survival therefore arises again and again. It follows that each being, if it changes slightly in a direction that is beneficial to it, under the influence of complex and sometimes changing conditions of life, will have a better chance of survival, in which natural selection is expressed. In accordance with the strict laws of heredity, each selected variety will strive to spread its new modified form."

By this time, Lyell had already popularized human prehistory, and Huxley had demonstrated that, from an anatomical point of view, humans belonged to the group of anthropoid apes.

In his book *The Descent of Man and Selection in Sex*, published in 1871, Darwin presented evidence that humans belonged to the animal kingdom, illustrated the continuity of physical and mental traits, and proposed sexual selection as an explanation for the existence of useless traits in animals.

He traced the evolution of human culture, the differences between the sexes, as well as physical, cultural, and racial characteristics.

All this while emphasizing that all human beings belong to one species.

His research continued in his work *The Expression of the Emotions in Man and Animals*.

In this book, he discussed the evolution of human psychology and its continuity with animal behavior. The conclusion at the end of the book is

"Man, with all his noble qualities, with all the sympathy he feels for the lowest, with his benevolence not only towards other people but also towards the humblest forms of life, with his godlike intelligence with which he penetrates the movement and composition of the solar system – with all his sublime faculties, Man still bears in his bodily frame the indelible imprint of his lower origin.

8.2/. LAW OF CONSCIOUSNESS-INFORMATIONAL ENERGY GENE ADAPTATION from 2008 by Prince Lord Prof. Momchil Dobrev and Mariola Garibova-Dobreva - EVIDENCE FOR THE DENIAL OF DARWIN'S THEORY and DIALECTICAL MATERIALISM

And here comes the evidence from 2008 of the discovery of Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva, proving that the INFLUENCE of ENERGY AND INFORMATION FROM the parent/parents who adopted a small infant child on him, causes a real change in his physical and mental qualities, in the structure of his skeleton, the structure of his body, behavior and everything else, which DARWIN'S EVOLUTION CANNOT DO in a natural way.

And in the process of contact between the adopted child and his adoptive parents from a young age to his 18th birthday. All this change and shaping of the child's body from the corresponding shapes, height, dimensions, physique and others is transferred by virtue of the ENERGY-INFORMATIONAL TRANSFER of information from the parent to the adopted child.

These changes that are precisely clear and proven and which have nothing to do with the genetic data of the child from his real parents COULD NOT HAVE OCCURRED as a result of DARWIN'S evolution.

The basis of any human development is HIS INFORMATIONAL-ENERGY STRUCTURE - hormonized in a precisely defined way. and His development depends EXACTLY ON THIS ENERGY-INFORMATIONAL STRUCTURE.

There is actually a TRANSFER of INFORMATIONAL GENETIC INFORMATION, which FORMS and causes a change in matter in the adopted child.

The informational energy structure of man and the universe is the one that DETERMINES the DEVELOPMENT of man, both his evolutionary and momentary.

9/. CONSCIOUSNESS is THIS INFORMATIONAL ENERGY STRUCTURE that governs matter, which CREATES MATTER. CONSCIOUSNESS OF THE FIRST CAUSE

Theory of vortex fields and human energy - based on two types of treatments

UNIVERSE THEORY - the combination of quantum theory and relativity with some corrections and new views on the vortex nature of space, cosmological information theory

FORCED GENE INFORMATION ENERGY - ADAPTATION -

The reading of DNA at the same input information at the input DEPENDS ON THE ENERGY STATE of the human energy system - thoughts, feelings, subconscious - subconscious - past lives, energy interventions from outside, energy karmic bases, as well as the constant influence of the energy field of another a person who lives with that person who is the object of study.

The regulation of gene activity depends entirely on the daily influence of both:

The energy-information fields from the outside include any kind of fields - human, energy-information fields of the environment, energy-information fields of the environment on the planet earth, the energy-information fields of the environment - the dwelling where one lives,

- Human energy information fields / CONSCIOUSNESS /
- Energy information fields / CONSCIOUSNESS / of food
- Energy-information / CONSCIOUSNESS/ relations between people
- The thoughts of the person himself - which represent an energy-information field / CONSCIOUSNESS
- The thoughts of other people - which are energy-information fields / CONSCIOUSNESS
- The energy-information field of the Earth and its influence
- Hereditary information - energy - information
- Energy information fields from other dimensions
- Energy-information fields of the environment.
- From the current energy-information state of the individual cell / CONSCIOUSNESS on micro niveau
- From the energy-information state of the whole human body
- From long-term energy-information fields-models - epigenetics
- Energy-information Perception from the outside world and information to the brain and the related limbic system.
- From the information-energy structure of stress, fear, apprehension, sadness, anger or other emotional blockages,
- Energy-information structure of Past experiences
- Energy Information Blocks
- Energy - informational unconscious impressions - alarm reactions
- Thoughts / brain / consciousness - information field - physical matter
- Information field - to the brain - physical matter

The regulation of gene activity depends on the environment in which a particular human energy system is located - a person - in what environment, in what environment he lives, with what people, with whom a particular person, and the influence of the energy system as a whole on that person on the given person.

The gene is a fragment of the hereditary DNA molecule, which contains the building code of certain body baltics. Each gene also has a so-called "gene trigger" - regulatory sequences.

The regulation of a gene determines whether and in what quantity the corresponding protein is produced.

The regulation of gene activity is not determined by the gene itself.

In the brain, the regulation of genes is subject to the constant influence of psychological signals.

From the middle - the middle is thoughts, food, fields, feelings, past lives - subconscious.

10. Basics of the ENERGY- INFORMATION GENETICS, ENERGY- INFORMATION PSYCHOLOGY, ENERGY- INFORMATION PSYCHIATRY, ENERGY- INFORMATION MEDICINE , Енергийно информационната археология based on the THEORY OF THE UNIVERSUM developed by Prof. Mariola Gariova- Dobreva and Prof. Lord Momtchil Dobrev – Halachev in the year 2005, that includes the ENERGY- INFORMATION GENE ADAPTATION

The theory of universum, which in turn distinguishes:

- "energy-information medicine "
- "energy-information genetics",
- "energy-information psychology"

- "energy-Information Psychiatry"
- "energy-information Archeology"
- „energy information Physics

"e

On the basis of the Cosmological Information Theory and Vortex Theory Theory, Mariola Garbova and Momchil Dobrev elaborate 2005. Theory of Universum.

We will briefly state that, based on the research of the human energy system and how it affects precisely defined diseases such as the identification system and consequently as a method of therapy and healing, it has been proven that the chakras actually represent the human energy centers double swirls that can rotate both on one side and the other. The interdependence of man's energy is energetic in the environment at both the conscious and the subconscious level, he has demonstrated the connection of human states, diseases, diseases, to the state of man's energy system - chakras, energy flows, consciousness, subconscious.

In fact, diseases that have been studied by Mariola Garibova and Momchil Dobrev have found an easy and adequate explanation. This, in turn, not only provides an explanation for the types of illness, but also gives a realistic guide to their therapy holistically - ie. complex - physical and spiritual - ie. energy. Based on these studies, the following sections of medicine, biology, psychology, genetics,

- "energy-information genetics",
- "energy-information psychology"
- "Energy-Information Psychiatry"

Since the current article allows for such a voluminous viewing of matter that requires a monograph of at least 1500-2000 pages, we will give the results briefly below.

10.1 /. Consciousness and information

Information is the primordial essence that gives birth to everything and everything alive. Information is part of consciousness, which is a living system that stores, receives, renews, sends, manages the processes, movements, actions of life.

Consciousness / through information influences the energy field and accordingly through it on matter.

Consciousness / through information and based on signals from:

- The medium / through food /
- environment / nature, plants, animals /
- the environment / Earth's energy information field /
- the medium / information energy field of a person - another person /
- the medium / information - the energy field of the Sun /
- the environment / energy information field of the universe /
- the environment / other people's energy information fields /
- the environment / from the subconscious - from past lives, past experiences in, present and past experiences from previous lives

Съзнанието и Information is influenced and controlled and controlled, commanded accordingly by energy fields, which in turn affect matter.

There is an energy - information matrix / consciousness / on Earth, in the sun, in the universe, in man.

Consciousness is an information field that is different for different types of density, depending on different dimensions of the field.

Consciousness is an information matrix that corresponds to and is composed of the consciousness of different fields - field structures.

For humans - depending on the fields - information fields have 12 dimensions of consciousness, the basis of which are types of vortex fields. Therefore, the DNA helix is double and counter-clockwise. Reading information from DNA is in that one and only direction.

This is the direction of reading and writing information. Snakes in antiquity show the generation of the power that reads information.

This is the direction of energy generation to maintain vortex fields.

The Twelve - the Six Double Threads Prove the Existence of a 12 Dimensional Dimension - Space - 12 Dimensions of Human DNA.

2006 bothe Prince Lord Prof. Momtchil Döbrev and Princes Lady Prof. Mariola Garibova-Dobreva developed Energy-information medicine „ Energy-information genetics, Energy-information psychology

BASIC POSTULATES following from Theory of the Universe, Theory of Vortex Fields, Energy Information Medicine and Genetics,

1 / POSTULATE NUMBER 1

Each organ oscillates in a specific spectrum when it is in a healthy state. The health spectrum is a SPECIFIC INTERVAL. Let's call it HEALTHY INTERVAL. When this organ radiates both in the healthy interval and in another interval outside this one, - either above this interval or below this interval, then this ORGAN IS SICK. EVERY PATHOGEN, BACTERIA, VIRUS, and others emit in a specific interval spectrum, oscillate and emit scalar waves.

POSTULATE NUMBER 2 - In the human energy information system there are frequencies FOR the following things:

For humans, there is a SPECIFIC FREQUENCY that regenerates human DNA and serves as a system for the regeneration of each organ. THERE IS FREQUENCY and its harmonic which REGENERATES both DNA - of the person, and is in a state of REGENERATES EVERY ORGAN OF THE HUMAN.

POSTULATE number 3 - EACH ORGAN has and has a frequency of regeneration of the cells of its organ.

POSTULATE NUMBER 4 - ORGAN REGENERATION IS CARRIED OUT BY MODULATION OF THE BASIC FREQUENCY, WHICH REGENERATES THE MODULATED DNA WITH THE FREQUENCY OF CUTTING. When the regeneration rate of the respective cells of the respective organ is superimposed on the baseline carrier frequency of the DNA regeneration rate, both cell regeneration of the respective organ and treatment are possible.

POSTULATE number 5 - TREATMENT OF PATHOGENS AND OTHERS THROUGH INTERFERENCE. Since each pathogen emits a specific FREQUENCY SPECTRUM - OSCILLATES in this spectrum, if the SAME SPECTRUM IS GENERATED with the same parameters directed to this pathogen - IT WILL OCCUR INTERFERENCE THAT WILL REALLY DESTROY.

POSTULATE Number 6 - INFORMATION CODE is a matrix that is emitted continuously by every living object - organs, structure, human body, human organ. The information code is a matrix that represents the cross section of the vortex radiation from the respective organ and object.

POSTULATE Number 7 THE INFORMATION CODE IS READ in a vortex way counterclockwise.

POSTULATE Number 8 - THE TREATMENT OF A SPECIFIC AUTHORITY can be done either by INTERFERENCE with a frequency spectrum corresponding to the respective organ OR THROUGH THE INFORMATION CODE transmitted in the same way - mirroring the way of reading.

POSTULATE Number 9- DISTRIBUTION OF PARTICLES, ELECTRONS in circuits and others is done by alternating a wave drill with a particle. THE WAVE CENTER is a right clockwise turn of all frequencies of light - for example, for light when the values of the electromagnetic field are different from zero and at the point if they are zero, the corresponding particle materializes the corresponding radiation. THIS IS THE COMBINATION OF WAVE THEORY WITH CORPUSCULAR THEORY.

POSTULATE Number 10 LIGHT IS DISTRIBUTED by a VORTIC PATH, as the wave part includes the electro-magnetic field, and at the zero point where the electric and magnetic field has zero value, the PARTICLE MATERIALIZES.

POSTULATE Number 11

Vortex fields exist ON THE BASIS OF A DETERMINED SPATIAL STRUCTURE OF THE AETHER - OF SPACE. ETHER has a SPECIFIC GEOMETRIC STRUCTURE, INCLUDING VORTEX FIELDS. LIGHT is a WHIRLPOOL and propagates in a precisely defined way a vortex spiral as in ONE PART IT IS A WAVE and in the points of zero union IT IS A CORPUSCULAR.

THIS IS GENERATED FROM ZERO POWER ENERGY.

POSTULATE Number 12

Each Vihrov spectrum - its section is the mandala and the numbers of this mandala the representative of a specific way are read - this is the information of the relevant body - each body, except frequency speaker, also has a specific information numerous which is visible from the structure of this vortex spectrum.

POSTULATE Number 13

The propagation of energy, of information takes place only with vortex movements. This is the easiest way to predict energy and information. That is why it is the connection of information and energy. This is the only way to spread energy and information - vortex fields. Energy and information are not disseminated by STRINGS. THE WHIRLPOOL IS THE BASIS OF A SINGLE FIELD.

Real theory of vortex fields of Prof. Momil DOBREV - HALACHEV since 1991 and proves the existence of vortex fields in the structure of matter at the lowest to the highest level, starting from the atomic structure to the structure of stellar systems, galactic systems of the universe . On the other hand, vortex fields are also present in the structure and functioning of the human body.

POSTULATE number 14

On the other hand, the cosmological theory of information proves that vibrations are the basis of the existence of all objects in the universe and man in particular, in the frequency ORGANS of the HUMAN BODY. The vibrations I had a vortex structure.

Only the vortex structure can propagate in one space - in this case space. The propagation of information in space or in the HUMAN BODY takes place only on a vortex principle. The information is read, written, changed in a vortex and vortex way. Even at the cellular level, there are well-defined vibrations with well-defined frequencies and frequency spectra. Vibrations are vortex fields. The reading and execution of information in DNA takes place only on a vortex principle. The vortex principle is and underlies the creation of universes with the sun and planets orbiting it. Every cell, even every organ, vibrates with a precise frequency when it is in a healthy state and precisely defined others when it is in a sick state. The deviation from the interval norm of a "healthy" vibration organ proves the opposite, that the respective organ is sick. Vortex fields actually carry, spread, create both information and energy. There is actually a conversion of information into energy and vice versa. In reality, on the basis of the theory of vortex fields, the transition of the material in the process of materialization and dematerialization is proved in an indisputable way, in which processes the information is not lost. On the other hand, vortex fields are the basis of material and antimatter. Vortex fields emit vibrations at well-defined and precisely defined intervals. This is the connection of vortex fields with cosmological information theory. Three specific principles apply to any vortex system: There is a force that is at the base of the vortex - at its center and commands the entire structure. For each structure there are vortex forces that cause the structure to tend to the center, vortex forces that cause the structure to tend to outer space and a separate force that does not allow objects of the structure not to leave the structure itself - ie. has the power to limit the size of the structure. Hurricanes are also vortex structures. At the center of the hurricanes is peace - ENERGY AT ZERO POINT.

12/. Basics of the THEORY OF THE UNIVERSUM developed by Prof. Mariola Gariova and Prof. Lord Momchil Dobrev – Halachev in the year 2005, basics of the Cosmological theory of Information and Vortex Field Theory developed by Lord Prof. Momchil DOBREV - Criticism of Relativity Theory and Supplementation of Quantum Theory

Basic Principles of THEORY of Universum - Unified Theory of the Universe, Critique of Relativity Theory and Supplementation of Quantum Theory

1991 Momchil Dobrev creates Cosmological theory of information (Dobrev , 2009) and theory of vortex fields (Dobrev , 2012)- the basis of everything. In the same year Momchil Dobrev created two free energy generators using the theoretical and practical solutions of both theories, creating

prototypes, but actually refusing to start regular production because he knows that all scientists and inventors create such generators soon after they are killed.

The real vortex theory proves the existence of swirling fields in the fabrication of matter at the lowest to the highest level, starting from the atomic structure, to the construction of star systems, galactic systems of the universe. On the other hand, the vortex fields are also present in the construction and functioning of the human body.

On the other hand, the cosmological theory of information proves that vibrations are the basis of the existence of all objects in the universe and man in particular. Even at the cellular level there are precisely defined vibrations of precisely defined frequencies and frequency spheres. Each cell, even every organ vibrates with exactly the same frequency when it is in a state of health and certain other ones when it is in a disease state. The deviation from the interval norm of the "healthy" body vibrations proves the opposite that the body is sick.

In February 1985, Momchil Dobrev, under the leadership of Professor Karl Heinz von Gotte, found superconductivity, but because of the intervention of a Bulgarian state security agent then working at the Berlin embassy in Berlin and the US CIA, stealing materials and betraying them, but Momchil Dobrev Dobrev refuses, is forbidden to publish the discovery. So 1985 because of State Security cop Prof. Gote and Momchil Dobrev are not awarded the Nobel Prize in Physics. The Nobel Prize in two years has been given to two scientists from Switzerland to discover superconductivity in September 1985. - seven months after Prof. Gote and Momchil Dobrev.

The vortex fields actually carry, distribute, create both information and energy. There is actually a conversion of information into energy and vice versa. In fact, on the basis of the theory of the vortex fields, the passage of the material in the process of materialization and dematerialization is undisputed, in which the processes do not lose the information. On the other hand, the vortex fields are the basis of matter and antimatter. Swirl fields emit vibrations precisely defined and at specified intervals.

This is the relationship of the vortex fields with the cosmological information theory.

Three distinct principles apply to each swirling system:

There is a force that is at the heart of the whirlwind - in its center, and it controls the entire structure. For each imi structure swirling forces that cause the structure to strive for center, swirling forces that cause the structure to strive for external propagation, and a separate force that prevents objects from the structure from leaving the structure itself - that is, has the force of limiting the size of the structure.

Vortex structures are also hurricanes. In the center of hurricanes is peace.

There are chakras in the human body both at the physical level and at the other two levels, which besides supplying information and energy to the respective glands and levels and organs at these levels, but it also raises the energy to the highest level.

The whirling structure that radiates the corresponding vibration - its section

Light is a vortex. Each electromagnetic wave is a whirl, the point at which both the electric field and the magnetic field are the zero point. Moreover, the space generating the vortices is geometrically based on the golden section, the numbers phi and pi. Electromagnetic wave is a whirlwind in a straight line. A basic element in the cosmological theory of information is also to note the basic principle.

The single field covers and is based on vortex fields. The dissemination of energy, of information becomes unique with the swirling movements in a spiral way - right rotation. This is the easiest way to

predict energy and information in the universe. That is why it is the connection of information and energy, ie. both are transmitted in the same way. Only this is the way of spreading energy and information - the vortex fields. Energy and information are not distributed on STRUMENTS. THE VORTEX FIELD and its forms are THE BASIS OF THE SINGLE FIELD.

The vibrations had a swirling structure.

Only the vortex structure can spread in one space - in this case the Cosmos.

Spreading information into space is purely a whirlwind principle.

The two theories prove that real human thought can be both a carrier of both information and energy and cause changes at the material level and at the spiritual level.

There are 12 dimensions of consciousness, the basics of which are types of vortex fields. Only On the first density level (first, second and third dimension) lies our incarnate self.

At each density level corresponds a certain type of matter and type of consciousness - that is, an information field with an information structure for the relevant plurality level.

Our first harmonic universe, or that of Earth, we have a biological structure that is based on carbon and matter is on a physical level.

In the depths of a harmonious universe where our souls inhabit, there is a silicon-carbon biological structure, and matter is on a physical-etheric level, also called a semi-etheric level.

In a third harmonic universe, the creatures are composed of crystalline silicon and the matter of net is entirely etheric.

The biological structure of the fourth harmonic universe, where the current levels of consciousness or the state of its current state are found, is a "crystalline liquid light," and the particles at that level are called premastery.

Dimensions 13, 14 and 15 at five density levels are composed of antimatter (other than antimatter) and the biology of the beings there is called "crystalline light radiation".

At the three levels above this dimension, namely polaris, triadic and ecuatec levels, the beings are of pure consciousness and these levels are not considered dimension.

Our soul includes us and eleven incarnated personalities, or a total of twelve people.

Our soul together with another 11 people forms our air. Accordingly, the smell is composed of 144 incarnated personalities.

Twelve halves make up the Christ avatar, which includes 144 people and 1,728 incarnate personalities. Accordingly, 12 Christ avatars are connected and make up one rhesus adept.

The relics of the Adept include, in turn, a further 144 breaths, 1,728 people and 20,736 incarnate figures.

All 12 personalities of the soul are placed in the so-called time vector. They are arranged as the clock on the dial is marked. In this way, 6 pairs of born persons are formed. These are 1 and 7, 2 and 8, 3 and 9, 4 and 10, 5 and 11, 6 and 12.

Most energy is allocated to pairs 12 and 6 as well as to pairs 3 and 9. These personalities are called "((the ethics" faces of the soul ". Most often position 12 is a man and position 6 is a woman. They have the same DNA template.

Clearing the link with your own avatar helps strengthen everyone's biofields and creates protection from negative intrusions up to 12 dimensions.

Gravity is the result of the vortex motion in the solar system and the vortex motion of the Earth around its axis.

The forces in space, the universe, the galaxy.

When space moves, there are TWO FORCES:

- a / the force that makes it move, being the aspiration of space for impulse
- b / the force which had hitherto kept him from moving, being the desire of space for inertia.

The pursuit of movement outweighs the pursuit of inertia,

The pursuit of inertia acts as a brake on motion, so the movement is slightly distorted.

Therefore, in the end, it returns to where it started and forms a rotating circle - such as the solar system, the galaxy system, the atomic system.

THE FIRST MOVEMENT IS A CURRENT SPACE.

After aeons, it returns from where it left,

THIS MAKES A HOLIDAY ROUND BELT.

This belt rotates in a plane, rotates with constant rotation.

The rotation in one plane continues until the stress it creates causes a new movement and does not start a new current in space - at right angles to the first, and the same process is repeated.

We now have two rotating planes, one in the other, and it is worth noting that the second plane is formed beyond the first, and therefore its diameter is larger.

The whole evolution depends on the difference and size of these planes.

When the higher acquires the same speed as the smaller and the older, it begins to attract an aspect of it, with the result that the older circle is drawn to the newer one.

The first circle should be considered as having an upper and lower surface. The upper surface of the upstream arch can be regarded as positive and the lower surface as negative. The downward arc is the opposite.

Same with the Second Emerging Circle.

These circles are mutually attracted and repulsed so that you can imagine the upper surface of the ascending arc (of the first circle) being positive, ascending to its corresponding aspect in the second cycle, and the lower surface of the returning arc pressing down so to get a second movement divided by rotating disks.

When this second movement completes its first lap and establishes its steady rotation, a new COSMOS occurs. This is the origin of the cosmos.

The secondary rotation of the first circle is the RING - THAT CANNOT BE MOVED, and the circle of the second formation is that sphere that sets the boundary of the Sphere - the so-called chaos.

There is a secondary branch on the outer sphere, and though it is a rotating circle of motion, for that Cosmos it represents the primary calmness, the immobility in which it is rooted.

It is the FRAMEWORK of the power of KOMSOM, that which assimilates and which alone allows the momentum to be acquired.

THE RING - The so-called Chaos arises from the reaction of the primal force to get its impetus.

It rotates at right angles to the primary rotation and counteracts it.

It is the attraction of the Ring - Chaos that establishes the Ring - COSMOS in its secondary motion and thus forms that secondary rotation which we call the RING - WHAT - CAN'T - BE - MOVE, the first restriction that restricts every universe, the galactic

That is why, in its essence, it is the ORIGINAL movement that enables space to emerge.

The Law of Counteraction - THE FIRST IMPULSE BREAKS A secondary impulse, so that a secondary impulse, in contrast to the first, creates stability.

Secondary rotation occurs as a reaction to the primary rotation.

Restriction is as its function is as a DISPLAY SUPPORT.

It should be understood as a limitation that allows pressure to emerge - as a rejection that allows concentration to be achieved.

Any progress toward a higher plan is a reaction to the constraint.

WE HAVE THE ORIGINAL ROTATION OF THE RING-COSMOS, the counteraction gives rise to the RING - the so-called Chaos, the attraction of the Ring-Chaos, causes the secondary rotation of the Ring-the Space, forming the Ring-which cannot-pass.

This motion in the RING-SPACE, rotating in a plane and at the same time rotating in space as if on an axis, sets a boundary beyond which the creations of the sphere cannot pass.

THIS SPHERE IS DANGEROUS BY TWO POWER LINES - RINGS - SPACE and RINGS - CHAOS, rotating at right angles to each other ..

The rotation of the Ring-Cosmos is the source of the force from which evolution derives its impulse, and the rotation of the Ring-Chaos is the source of the force from which restriction draws its power.

THE RING - CHAOS did not belong to the dangerous sphere, but to the outer space.

THE RINGS OF THE RING-SPACE are facing the sphere that it encircles.

The aspirations of the RING - CHAOS are turned to the space that surrounds it.

The Ring - Space seeks to expand the center.

The Ring - Chaos seeks to expand the periphery.

The Ring - Space seeks to harden by contraction.

The Ring of Chaos seeks to return to the UNDERTAKEN from which it arose, and therefore, if its influence were unimpeded, it would reduce the sphere which is in danger.

THE RING - SPACE if its influence were unimpeded, it would be static in the immediate present.

THESE TWO INFLUENCES ARE THE SOURCE OF ALL POWER IN THE SPACE.

THE RING-SPACE, because it hardens, builds, THE RING-CHAOS, because it scatters, never grows.

POWER CIRCUITS THROUGH A ROTATE ANGLE WITH respect to each other and therefore in opposition, and that simply the angle of the first that arises is called "positive" and the opposite angle of the primary plane is called "negative" and is quite possible in another Space the first plane has started to rotate at another angle - the angle of your "negation".

In one galaxy are twelve beams and seven cosmic levels.

Space consisting of THREE rotating motions.

Movement in space - pure movement.

The primal movement that gives rise to all that exists begins before there is anything that moves.

The SPACE is limited by this movement, which is called - THE RING - WHAT - CAN'T - CAN - BE - BE - MOVE. This is the limit of any galaxy, the solar system, of one atom.

There are also two-way movements.

The Ring of Space and the Ring of Chaos.

These three movements - the first trinity, so the supreme being in a new manifestation is always understood as the TRINITY - and three is a fundamental number.

Whatever subsequent tensions may arise, they cannot be regarded as a balance of these three forces:

a / The power of the Ring Space, which strives for the center.

b / the power of the Ring - Chaos - which strives for outer space.

in / the power of the Ring - which - cannot - be crossed, which maintains a balance between them and

The Ring - which cannot be-transmitted is derived from the RING - SPACE and is therefore more a part of its nature than of the Ring-Chaos.

The Space Ring seeks to focus energy as the Ring Chaos seeks to dissipate.

The Chaos Ring cannot build anything because whatever force it generates, it is dissipated indefinitely in the outer space.

The motion of the cosmic ring creates secondary vortices, it is bounded by the ring - chaos, so the inward band expands into a rotating disk with a fixed center.

In practice, this becomes a rotating sphere. This system gives rise to rotating radii, which we call rays.

This is a spiral connecting the center to the periphery

If there are streams that flow to the periphery, then the stream flows to the center.

The center is a synthesis and balance of all forces.

If there is a flow of rays from the outside and then inwards.

The outward flow stream is at the top and the inward flow stream is down i.e. circular motions are created. The movement of rays and concentric circles. The rays are 12 and the concentric circles are seven

If tangent rays are obtained. The intersection of circles and rays generates vortices - a tangential motion at an acute angle.

There are interactions between the rings, the interaction of the secondary rays and concentric circles, tangential motion.

There is movement of rings, rays, and concentric circles, movement on tangents inside the segment, movement in vortices.

13). CONCLUSION

In ancient Egypt they knew the process of resurrection and elevation, and they knew not only the great construction of the spiritual world but also knew the vortex fields, the zero point and the generation of energy, and

Everything above proves that in ancient Egypt and in other articles we will prove that the ancient people
